

# WATER SAVING ACTIONS

AT SCHOOL AND  
OUTDOORS

Use a drink  
bottle  
instead of a  
drinking  
fountain

Water plants  
in the early  
morning or  
late  
afternoon

Install a  
rainwater  
tank to  
collect  
rainwater

Fix dripping  
taps and  
leaks

Collect water  
under drinking  
fountains for  
use on the  
garden

Grow grass  
a bit longer  
in summer

Smart  
water  
starts with you!
